

Airy

Royal Observatory Greenwich

1856 December 15

My dear Sir

Allow me to
introduce to you Dr. Whewell
(Master of Trinity College,
Cambridge), who makes a
short visit to Rome.

Dr. Whewell is connected
officially with the Observatories
of Greenwich and Cambridge,
and will see with interest
any thing relating to Astronomy.

M. Padre Secchi

Prof. J. Whewell will also
regard with interest every thing
relating to science, to
literature, to art, and to
education; and I should
be glad to be permitted to ask
your kind assistance to him on
all these subjects.

I am, my dear Sir,

Very truly yours

J. Keble
